## About the Client

Palo Alto Networks is a global cybersecurity leader, driving innovation in secure digital transformation. Their Bengaluru workspace reflects a strong focus on collaboration, flexibility, and high-performance communication environments across two buildings.

## The Challenge

The objective was to create a consistent AV experience across two separate buildings, supporting interactive and scalable meeting rooms, flexible training environments with room combination capability, and large-scale employee engagement — all within an aggressive 75-day timeline. The key challenge was ensuring seamless integration and uniform user experience while enabling flexibility across different room formats and use cases.

#### MAX ROOM CAPACITY

**15 Pax**

## Our Solution

Ideas Ahead designed and implemented a standardized yet flexible AV ecosystem built on Zoom Rooms for unified collaboration, network-based AV architecture for scalability, and intelligent automation for training and event spaces. The solution ensured a consistent user interface across all rooms, effortless room control and switching, and a high-quality audio-visual experience across all environments.

## Spaces Delivered

### Meeting Rooms (4–15 Pax) — 34 Nos

Interactive collaboration spaces equipped with Logitech video conferencing systems and DTEN 55" & 75" all-in-one interactive displays. Designed for seamless Zoom meetings, whiteboarding, collaboration, and a plug-and-play user experience.

### Divisible Training Room (1+1)

Flexible training environment functioning as two independent rooms or one combined space. Features PTZ cameras for presenter and audience, intelligent camera switching with speaker tracking, ceiling microphone arrays, network-based speakers, Logitech Scribe for digital whiteboarding, and seamless room combine/isolate at the touch of a button.

### Cafeteria / All-Hands Space

Dynamic engagement zone for large gatherings, live events, and Zoom-enabled all-hands sessions. High-quality speakers with wireless microphones, dedicated cameras for presenter and audience coverage, wired presentation system with integrated Zoom conferencing.

### Recreation Space

High-energy zone featuring a powerful, immersive audio system designed for informal collaboration and team engagement.

## Key Results

- 1 Successfully delivered across two buildings within 75 days
- 2 Consistent AV experience across all spaces and room types
- 3 High user adoption due to intuitive Zoom-based systems
- 4 Flexible training and collaboration environments with room combine
- 5 Enhanced employee engagement through all-hands and event-ready spaces

## Why IdeasAhead

### Speed of Execution

Proven ability to deliver large-scale AV deployments within aggressive timelines.

### Platform Expertise

Deep integration knowledge across Q-SYS, Zoom, Dante, and leading AV hardware.

### User-Centered Design

Solutions designed for adoption — intuitive interfaces that employees actually use.

### End-to-End Delivery

From design through commissioning and support — single point of accountability.

# Let's Build Something Remarkable

Transform your workspace with intelligent AV solutions  
designed for how your teams actually work.
